

Complete Technology Packages

Electrical Equipment Company, Inc. Provides Solutions for All of Your System Requirements

One Phone Call

We do it all. From simple data networks to complex audio systems and security systems, ELECTRICAL EQUIPMENT COMPANY can manage all of your technology requirements. Our qualified staff of application engineers, project managers and service technicians have the background and training needed to assure our customers that they will receive top-quality systems installed to meet the highest standards in our industry. In fact, we have been providing our own brand of personal, professional service in Indiana since 1939.

No matter what system you need, one phone call is all you will ever need to make.

Project Profile

Ivy Tech State College in Lafayette, Indiana has several recently installed EECO systems in their new academic building.

Completed in August of 2001, this building includes Fire Alarm, Card Entry, Security, CCTV, and Auditorium Sound Systems.

The building's Intelligent Addressable Fire Alarm system includes a Remote Annunciator Panel, Fire Alarm Preaction Panel for a Dry Sprinkler System, and over 250 addressable devices.

Ivy Tech State College - Lafayette, Indiana

An all-inclusive Security system includes 6 LCD keypads, 42 motion detectors, and a number of door contacts and glass break detectors throughout the building. Four magnetic stripe card readers control access to key exterior doors when the building is locked. Control and reporting of all activity over the system is managed through a computer in the building control center.

A sixteen camera CCTV system monitors and records activity throughout the building and parking lot. The system includes time lapse recording, multiplexing and keyboard control of pan-tilt-zoom cameras.

The building's large group classroom features a 28 speaker sound system, hearing impaired system, and a portable case for source equipment.
